SCIENCE AND SUSTAINABILITY 2015

Carolino building, Puebla, Mexico
9th November 2015

The aim of this workshop is to bring together students, researchers and engineers from academia and industry interested in understanding the environmental impact and health risks of materials, devices and processes of production. This knowledge can guide to sustainable ways of production and living. Important research areas like nanotechnology, renewable energies, waste treatment and urban development will be addressed in this workshop.

SCHEDULE

08:30-09:15	Registration
09:20-09:30	Welcome words
09:30-10:00	Urban minery. Dra. G. Lapidus, UAM-I
10:00-10:30	From carbon to supercondensators. Dr. Pedro González, CIDESI
10:30-11:00	Nanostructures for medical applications. Dr. Efraín Rubio, CUVyTT
11:00-11:30	Nanocatalysts for clean diesel. Dr. Sergio Fuentes, CNyN
11:30-12:30	Coffee break with poster session
12:30-12:50	Crear, Innovar, Desarrollar SA de CV. Dra. Elizabeth Cortés Rodríguez
12:50-13:10	BIOFASE SA de CV. Ing. Scott Munguía
13:10-13:30	GIZ sustainable actions in Mexico. Corinna Kuesel
13:30-14:00	DAAD scholarships. Dr. Enrique Quiroga González
14:00-14:20	Conclusions and remarks. Dra. Y. Arredondo, Dr. L. Tamayo
14:20-14:30	Farewell picture

ORGANIZERS

UNPA, Dra. Martha Emilia Poisot Vázquez
UTEQ, Dra. Jacqueline Bocarando Chacón
IFUAP-BUAP, Dr. Enrique Quiroga González
