

Mexico City, April 22nd, 2019

Enrique Quiroga- González

Benemerita Universidad Autonoma de Puebla

I am pleased to inform you that your contribution "**TIN SULFIDE NANOPARTICLES COVERED WITH HYDROTHERMAL CARBON AS ALTERNATIVE HIGH CAPACITY CATHODE FOR LI ION BATTERIES**" by *Enrique Quiroga- González, María Fernanda Gonzaga- Velázquez*, has been **accepted** in symposium **D2, Materials for High Electric Power Applications** at the XXVIII International Materials Research Congress, to be held in Cancun in August 18 - 23, 2019.

The presentation has been accepted in the **Invited Talk** modality. Remember that in order to include your abstract in the program book you must register before May 17th, 2019.

Organizers of the Symposium

"Materials for High Electric Power Applications"

Fermin Pascual Espino Cortés, Enis Tuncer, Ayman El-Hag, Juan Carlos Olivares Galvan
