

Mexico City, April 27th, 2021

Erick Leonel Espinosa Villatoro

Laboratorio de Energía

Instituto de Física BUAP

I am pleased to inform you that your contribution **"EFFECT OF Na- PRECONDITIONING IN THE PROPERTIES OF SILICON ANODES FOR LI-ION BATTERIES "** by *Erick Leonel Espinosa Villatoro, Enrique Quiroga González, Johanna Nelson Weker, Jesse Sun Ko, Alina Santillán Guzmán,* has been **accepted** in symposium **C2, Electrochemical Energy Storage and Generation: Batteries, Supercapacitors and Fuel Cells** at the XXIX International Materials Research Congress, to be held in Cancun in August 15 - 20, 2021.

The presentation has been accepted in the **Oral** modality. Remember that in order to include your abstract in the congress program you must confirm your participation no later than May 21 by choosing the modality you will present your abstract(s); you can do this from your IMRC account.

Organizers of the Symposium

"Electrochemical Energy Storage and Generation: Batteries, Supercapacitors and Fuel Cells"

Javier Rodríguez Varela, Sundeep Mukherjee, Ivonne Alonso, Ana Ocampo
