Dear Enrique,

Your name has been suggested as a suitable independent reviewer for an application submitted to the Kathleen Lonsdale Fellowship. I reached to Maria Elena Arroyo De Dompablo and they suggested I contact you. So I'm getting in touch to ask whether you would be prepared to act as an independent reviewer for the above application. As we are seeking an objective opinion on the proposal, it is not necessary for you to know the applicant. Once you confirm you are happy to review the application I will send it over to you along with a marking sheet.

The Fellowship offers a first step into an independent research career for exceptional scientists and engineers who have a current need for flexible or special support. The Fellows are chosen based on the scientific merit of their research and how it fits ICAM's vision to enable the effective application of advanced materials for the transition to net zero. You can find more information about the Fellowship [here](#).

Your comments would greatly assist the selection panel in their decision. If you are able to help us, we would appreciate your confidential comments and an evaluation rating before **20<sup>th</sup> December 2021**, which will give time for comments to be circulated to the selection panel. At this stage I can be flexible with the deadline if you require more time. If you do need more time please let me know a date that would suit you.

I would appreciate it if you could contact me as soon as possible to let me know whether you can or cannot review this application. Please also let me know if you feel you have a conflict. If you cannot help on this occasion, it would be most helpful if you could suggest the name of someone else we might approach.

Thank you in advance for your reply.

Yours sincerely,

Zoë
